Cómo usar este libro

Este libro reúne 365 ejercicios de mate, uno para cada día del año, ordenados de menor a mayor dificultad en cuatro bloques: mates en cero, en una, en dos y en tres jugadas.

En los **mates en cero** no hay que mover: la posición ya es jaque mate. El ejercicio consiste en ver qué pieza da el mate y comprobar que el rey no tiene escapatoria, que el jaque no se puede tapar y que la pieza atacante no se puede capturar.

En los demás bloques hay que encontrar el mate en el número de jugadas indicado. En todos ellos la primera jugada es un jaque, y hay que tener en cuenta todas las respuestas del rival.

Las blancas juegan siempre desde abajo. Bajo cada diagrama se indica el bando que juega: □ juegan blancas, ■ juegan negras.

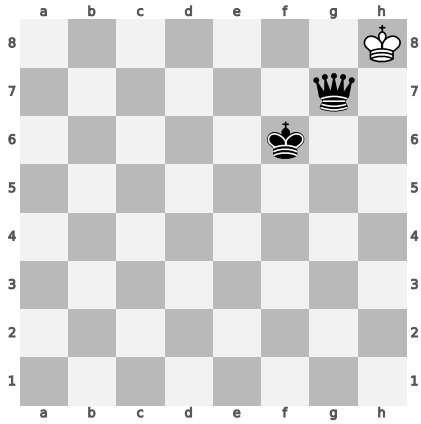

Las soluciones están al final del libro. Para cada ejercicio se da la jugada clave, la línea principal y, entre paréntesis, las otras defensas. Si el defensor elige una respuesta peor, el mate puede llegar antes.

I

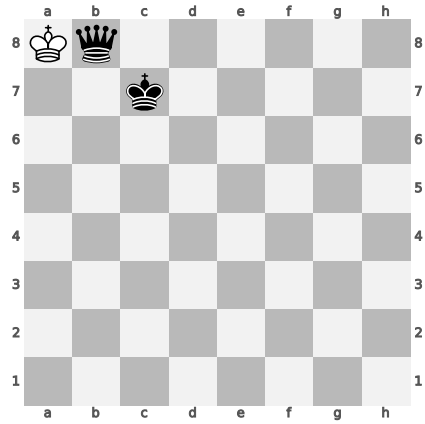

Mates en cero

El rey ya está en jaque mate. Descubra qué pieza da el mate y por qué no hay defensa.
